

30 NOV 1981

MEMORANDUM FOR THE RECORD

SUBJECT: Meeting with Council of Governments (COG) -
25 November 1981

1. Mr. Robert Grow, Council of Governments (COG), called for a meeting of concerned parties to discuss issues surrounding the traffic problems created by CIA consolidation at Langley. A list of attendees is attached.

2. As the meeting unfolded, the following points were raised:

a. COG is uncomfortable with an analysis based on 1985 traffic projections and prefers 1990 projections.

b. COG, Fairfax County, and Virginia Department of Highways & Transportation (VDH&T) officials all contend there is insufficient information on the traffic analysis (although only COG has studied the report).

c. Fairfax County and Virginia officials are unhappy with the short response time placed on their review. This apparently results from slow mail service and usual inefficient administrative processes within their offices.

d. None of the reviewing authorities is willing to support the Agency's Master Plan without Federal Government guarantees that road improvements will be funded along with Agency construction.

3. Conclusions reached at this meeting were:

a. The Agency's traffic consultant will meet with COG, VDH&T, and Fairfax County traffic experts during the week of 30 November to review the analysis in depth and, hopefully, achieve an agreed upon technical analysis.

b. The National Capital Planning Commission (NCPC) will unofficially extend the deadline for responses from 14 to 21 December. The presentation date remains fixed at 4 January 1982.

c. The non-Federal elements were encouraged to make their concerns regarding guaranteed road funding part of their official responses. It was pointed out that this would aid the Agency and GSA in pressing for roads funding.

4. The NCPC representatives advised the undersigned after the meeting that the pressure and concern exhibited by the reviewing authorities was typical for a proposed Federal program of this size.

Chief, Building Planning Staff, OL
